

Josef Tson

I first heard about Josef Tson back in the 1990's. The tape I have from then is a partial recording, but it is very powerful. The video is not quite as powerful, but the message is the same. The message is profitable for all, and fundamental, unaffiliated Baptists would do well to take heed.

There are only three caveats that I make concerning Pastor Tson and the forum in which he presents his messages and testimony:

- His forum is Southern Baptist. It is not the best and he could do better. However, the Southern Baptists are the largest "Baptist" denomination in America, and they took Pastor Tson in immediately. I am not certain Josef Tson understands who and what the Southern Baptists are. But, I am not certain most Southern Baptists understand who and what they are either.
- His understanding of the word "servant" as opposed to "slave" is culturally driven. That is not bad, but it does bear some explanation. In the KJV, the word "slave" is only used twice. The word "servant" is used in 887 verses. In short, the word "servant" encompasses everything from a slave to a taxi driver who is hired for a few moments time.
- I cannot speak as to his Bible, but the wording he uses and the understanding he has of what it teaches is consistent with a Received Text rendering.

With those things in mind, please be blessed.

If you cannot view the video in the post, it can be found [here](#).

In Christ,

Paul W. Davis
